

Leveraged Lion Capital Monthly Report

December 2023

LLC Updates

LLC ended the year on a strong note by finalizing our deliverable presentations, including Returning Associate and Lead Analyst solo presentations on relative valuations and LBOs. The semester concluded with a recap. The 2024 Executive Board bid farewell to our seniors through a presentation featuring senior superlatives. Both our Executive Board and the LLC community extend sincere appreciation for all that the 2023 Executive Board contributed to our organization.

The new Executive Board worked diligently throughout December to ensure the organization was set up for success in the new year. This began by establishing a value-backed mission. LLC's mission is to "Empower Penn Staters to reach the highest levels of finance." Being Penn Staters and leveraging our strong alumni network is at the core of what allows us to succeed in attaining the most prestigious and competitive positions in finance.

Our mission is supported by four core values: integrity, giving back, commitment to diversity and inclusion, and dedication to personal and professional growth. Grounded in these values, LLC aims to place individuals with strong ethical and moral standards in the highly competitive landscape of Wall Street. Our commitment to our people goes beyond the classroom and extends to developing our members as strong societal contributors. We look forward to a great year for Leveraged Lion Capital.

Alumni Spotlight: Anthony Saggese '22

Anthony Saggese currently works for SMBC in the Leveraged Debt Capital Markets group. Before his full-time employment, he interned within Cowen's Investment Banking Division in Private Capital Solutions. Anthony joined Leveraged Lion Capital in the Spring of 2019 as an Associate Analyst before finishing his 4-semester tenure as Director of Monthly Reports. He graduated in the Spring of 2022 with a B.S. in Finance and minor in Information Systems Management.

Contact Information:

Email: apsu733@gmail.com

1. When were you a member of Leveraged Lion Capital and what positions did you hold?

I joined LLC my freshman year in the Spring of 2019. I spent two semesters as an Associate Analyst covering REGAL-FIG / Media & Communications before pivoting to Lead Analyst of Consumer & Retail then Director of Monthly Reports.

2. How did Leveraged Lion Capital help prepare you for your future career?

From a technical perspective, LLC provided the fundamental credit knowledge that has allowed for a softer transition into Leveraged Debt Capital Markets. The standard LLC pitch pages could not be more encompassing; pulling capitalization tables, pricing comparables, and leverage metrics is the foundation of evaluating prospective M&A and LBO deals. The underwriting memos, pitch pages, and weekly deliverables include much of the same analysis. Even high level, understanding how the credit drivers and risks funnel into the buy-side investment thesis has helped my ability to assess companies and structure transactions from the sell-side. The applicable Leveraged Finance curriculum is an invaluable experience that has paid dividends in my professional career.

3. What advice would you give to new members of Leveraged Lion Capital?

Continue to ask questions, be intellectually curious, and challenge yourself. You will never have this much free time to learn unconditionally. The industry slang and technical terminology will sound foreign – that's okay! There is a million concepts, acronyms, and Excel shortcuts to grasp, so embrace the journey. Asking questions will not only help yourself but also those around you, including the respondent. The credit learning curve is steep, but every answer will bring you one step closer.

4. What advice do you have for members of Leveraged Lion Capital who are currently recruiting for internships?

Wall Street recruiting can be an extremely discouraging process – do not take it personally. Despite its competitiveness, recruiting is admittedly a dysfunctional process across banks. One of my favorite quotes is, "Luck is when preparation meets opportunity." Focus on the elements in your control, e.g., networking, technicals, market outlooks, and mock interviews. That said, networking is the single most important factor. Your network will get you the interview, and your preparation will land you the offer. Utilize LinkedIn, Robin's list, and family connections. Never lose sight of the goal, and remember, everyone has their own separate path. Do not get discouraged when an LLC classmate lands an offer, get excited because you are up next.

CIO Commentary

For the month of December 2023, Leveraged Lion Capital's leveraged loan portfolio returned 1.03% nominally, an underperformance to the LSTA 100 Index of 0.89%. Leveraged Lion Capital's high yield bond portfolio returned 2.44% nominally, an underperformance to the HY Index of 0.59%.

Currently, Leveraged Lion Capital holds 17 bonds and 13 loans, with S&P credit ratings ranging from CCC to BBB- and B to BB+, respectively. The BBB- bond that we hold was issued by ICON PLC and was upgraded from BB+ in October.

The REGAL-FIG Sector has the highest weighted-average yield of 10.39% with a portfolio of 3 loans, and the Energy Sector has the lowest weighted-average yield of 7.10% with a portfolio of 4 bonds.

Leveraged Loan & HY Bond News

HY bond issuance was minimal in December with 21 issues totaling \$2.60 bn. Ratings activity was negative with the ratio of downgrades to upgrades climbing to a seven-month high of 2.42x. The LSTA default rate by issuer climbed in December to 2.05%, yet the share of loans priced at, or above par closed the year at the highest level since rate hikes began. M&A shortage caused the loan market to shrink in 2023 for the first time since 2010.

HY Market Compression

Sentiment was risk on in December as the stock market, treasuries, and credit extended the strong gains from November. Fixed income markets saw yield compression. The BBHY's OAS dropped as low as 311 bps, which is the tightest level since April of 2022. Investors flocked to longer duration securities following November's CPI cooling to 3.10% and FOMC lowering rate projections.

Sector Summaries

Consumer & Retail

Lead Analyst: Madi Hunter

The Consumer & Retail Sector's loans returned 0.81% nominally this month and bonds returned 3.99% nominally. The Sector's best performing holding this month was Energizer's 2029 Senior Unsecured Bond, trading up 308.3 bps. The company's performance is primarily due to its current cost restructuring and plans to close one of its battery plants. The Sector's worst performing holding this month was Petco's 2028 TLB trading down 12.5 bps. Petco has had consistently poor financial performance and has struggled to maintain profitability within its discretionary segment of pet toys. After CPI beat expectations by 20.0 bps for the month of December, the sector plans to monitor consumer prices and spending habits moving forward.

Energy & Utilities

Lead Analyst: Noah Simone-Dobin

The Energy Sector returned 1.34% nominally this month. The Sector's best performing holding this month was Weatherford's 2028 Senior Secured Bond, trading up 264.9 bps. This performance was aided by S&P, Moody's, and Fitch raising Weatherford's credit rating from B to B+ due to increasing profit margins and deleveraging efforts. The Sector's worst performing holding this month was Vital Energy's 2028 Senior Unsecured Bond, trading up 20.7 bps. The company averaged 113,400.00 MBOE/d in the fourth quarter, significantly above their production guidance. During the following month, the Sector will be monitoring the continuation of the war in the Middle East, and the ensuing Iran-backed Houthi rebel attacks in the Red Sea for any indications on how oil prices will move in the future.

Healthcare

Lead Analyst: Jayden Golden

The Healthcare Sector's loans returned 0.83% nominally this month and bonds returned 2.17% nominally. The Sector's best performing holding this month was HealthEquity's 2029 Senior Unsecured Notes, trading up 192.5 bps. The company released their 3Q23 earnings in December, beating expectations. The Sector's worst performing holding this month was RadNet's 2028 TLB, trading up 25.0 bps. The company announced MammogramNow, a new screening mammography service. The sector will be monitoring Pfizer's earnings, as they are expected to be released later this month. This will be a good indication of the current state of the pharmaceutical industry.

Industrials

Lead Analyst: Dean Allen

The Industrials Sector returned 2.33% nominally this month. The Sector's best performing holding this month was Tutor Perini's 2025 Senior Unsecured Bond trading up 597.7 bps. Tutor Perini works in the construction sub sector of industrials which has been performing well due to the effects of the new infrastructure bills from 2021 and 2022. The Sector's worst performing holding this month was Danaos Corp's 2028 Senior Unsecured Bond, trading down 14.5 bps. The company has been dealing with increased container ship costs due to problems in the Red Sea. The Industrials Sector will be monitoring Boeing's plane issues, the boom in infrastructure, and supply chain issues in the Red Sea and Panama Basin.

Sector Summaries

Information Technology

Lead Analyst: Sid Sharma

The Information Technology Sector's loans returned 0.97% nominally this month and bonds returned 2.70% nominally. The Sector's best performing holding this month was Onsemi's 2028 Senior Unsecured Bond, trading up 212.5 bps. The company has maintained a leverage ratio below 2.00x and EBITDA margins above 25.00%, satisfying Moody's quoted ratings upgrade criterion. The Sector's worst performing holding this month was Ultra Clean Holdings's 2028 TLB, trading up 12.5 bps. This loan has had little trading activity, and the company recently spent \$100.00 mm in an acquisition, impacting both trading and company liquidity. The sector will be monitoring the continued layoffs by companies within the sector and the recent uptick in deal activity, such as Synopsys's \$35.00 bn acquisition of Ansys.

Materials

Lead Analyst: Alex Kornblatt

The Materials Sector's loans returned 1.79% nominally this month and bonds returned 2.84% nominally. The Sector's best performing holding this month was First Quantum Minerals' 2025 Senior Unsecured Bond trading up 326.2 bps. The company is starting to cut spending, pause dividends, and put smaller mines up for sale in an effort to combat its losses experienced from its Panama mine. The Sector's worst performing holding this month was Mercer International's 2029 Senior Unsecured Bond, trading up 87.4 bps. Over the course of the month the company has performed slightly better than previous months and have released a revised amended plan of liquidation. Over the course of the next month, the sector will analyze First Quantum Minerals' performance with demand in relation to the demand in the mining industry.

Media & Communications

Lead Analyst: Jakub Dingo

The Media & Communications Sector's loans returned 0.70% nominally this month and bonds returned 1.24% nominally. The Sector's best performing holding this month was Ciena's 2030 TLB, trading up 37.5 bps. Recent earnings reports caused Lazard to upgrade Ciena's price target from \$52.00 to \$57.00. The Sector's worst performing holding this month was Warner Music Group's TLB, which did not trade up or down. The company has experienced stable earnings, and the security itself is very highly secured causing low price movements. Paramount and Warner Bros. have also reportedly been in talks for a potential merger.

REGAL-FIG

Lead Analyst: Ben Petrulis

The REGAL-FIG Sector returned 1.83% nominally this month. The sector's best performing holding this month was MoneyGram International's 2030 TLB, trading up 150.0 bps. MoneyGram recently announced a new CPO, part of their campaign to enhance internal infrastructure to improve operations. The sector's worst performing holding this month was Virtu Financial's 2029 TLB, trading up 50.0 bps. Although reporting strong 3Q23 earnings, an independent investigation has been opened alleging officials and directors breached their fiduciary duties to shareholders. The sector plans to monitor the trajectory of the private credit explosion and its impact on bank profitability leading into 1Q24.

Spring 2024 Organizational Overview

Leveraged Lion Capital is the nation's first student-run syndicated paper loan and high yield bond portfolio. Founded in Spring 2017 at The Pennsylvania State University, the organization aims to educate undergraduate students about the world of fixed income through the utilization of various resources and unique relationships with financial organizations and institutions, including Bank of America, the LSTA, and S&P Global Market Intelligence. Managing an approximately \$125 million paper portfolio, students seek to learn the fundamentals of credit analysis via a hands-on approach by researching, analyzing, and pitching U.S. leveraged loans and high yield bonds to the rest of the organization. The portfolio is divided into eight sectors that are derived from the S&P/LSTA 100 Index, consisting of Consumer & Retail, Energy, Healthcare, Industrials, Information Technology, Materials, Media & Communications, and REGAL-FIG (Real Estate, Gaming & Leisure, Financial Institutions Group).
